PRO • pHx

COST EFFECTIVE SOLUTIONS FOR THE MAJOR ISSUES

Associated With The Pickling Baths

For Industries Using Acid in the Manufacturing Process

BENEFITS OF *PRO • pHx* IN YOUR SYSTEM

PRO • pHx Acid Life Extender drops metals, organics and impurities out of Sulfuric, Formic, Nitric & Hydrochloric Acids, etc., encapsulating them into non-toxic, non-leaching agents.

***PRO • pHx* Acid Extender**

ELIMINATES NEW MAKEUP ACID COSTS BY 89%

REDUCES FILTERED SOLIDS BY 98 %

Extends Acid Life Indefinitely

Eliminates Costly Disposal Methods

Eliminates Organic Buildup

Eliminates Oily Film Buildup

Requires No Down Time

Convenient, Cost Effective In-House Treatment

Eliminates Issues Associated With Acid Disposal

Odorless - No Unpleasant Treatment Odor

Recaptures Operating Costs As Profit

PRO • pHx Acid Extender drops metals and organics out of solution which build up in the acid during the pickling process. This “frees up” the remaining available acid in solution, extending the acid life indefinitely, decreasing the quantity of new acid necessary to maintain the desired dilution of acid to water ratio. The only replacement acid necessary is the small amount lost during drag out or through evaporation.

PRO • pHx treated acid helps to remove the oily film and organic build up normally left with untreated acid, helping to refine the crystals and to promote a smoother finish (phosphate) when compared to untreated acid.

***PRO • pHx* IS INORGANIC, ODORLESS AND HAS NO FUMES OR OUTGASSING.**

Meets OSHA-20 Non - Hazardous Specifications.

NON - TOXIC • NON - FLAMMABLE • NON - ACID • NON - HAZARDOUS

FOR INDUSTRIES REQUIRING ACID BATHS IN THE MANUFACTURING PROCESS

Plating, galvanizing, anodizing, circuit board printing, etc.

A Revolutionary Technology and Environmental Breakthrough

Acid Life Is Restored And Extended Indefinitely

Cost effective environmentally safe answers for industrial acids and wastewater.

ORGANIC DESTRUCTION

Acetone	Dichloromethane	Oil Base Drilling Mud
Alcohol	Formaldehyde	Oil/Crude
Antifreeze B13/C	Gasoline	PCB's
Bacteria	Hydrocarbons	Trichloroethylene
(Including Phenol Coliform)	Methylene	Trichloromethane
Chlorine	Creosote	Trychlorthane
Chloroform		Viruses

METAL INSOLUBLIZED

Aluminum	Chromium	Nitrate
Arsenic	Copper	Phophogypsum
Barium	Iron	Radium
Cadmium	Lead	Selenium
Chloride	Magnesium	Sulfate

EXCLUSIVE DISTRIBUTOR IN

New England, New York, and New Jersey
